

Ian Stark Back at the Carolina Horse Park

Carolina Horse Park, January 23, 2018

Carolina International cross country course designer, Ian Stark, is back for the third year, at the Carolina Horse Park overseeing new, exciting course changes for 2018. Ian, internationally known course designer and European & World Champion, along with course builders Tyson Rementer and Levi Ryckewaert's work is well underway.

From Ian, "I am thrilled to see the footing work that has been done at the Carolina Horse Park in the last several months. This year the CIC3* course will be run in the opposite direction than it has the last few years. We believe the change of direction will allow for the use of the best terrain and footing the Horse Park has to offer, therefore providing a great fitness test as horses are preparing for their spring CCI's."
